Communities of Practice

The CAGC Board of Directors (BoD) has developed 7 Communities of Practice with the idea of connecting counsellors with expertise in a given area to act as a network across the country and as a resource to one another. The CAGC BoD may ask a CoP to undertake a project of value to the entire CAGC membership (e.g., patient education materials, practice guidelines). Alternatively, a CoP can initiate such a project themselves. There is no obligation to participate in projects as a member of a CoP.

If you are interested in joining any of the CoPs, please contact the leaders directly by email.
